

# EXTRACURRICULAR PROJECTS

Our school offers lots of opportunities to learn beyond school lessons. In fact, students can take part in many courses or meetings during the afternoon too.

These are the most important courses and activities:

## Venerdì del Liceo

This is an event that takes place in the auditorium where students and teachers can give lessons and share their academic experience.

Students and teachers during a "Venerdì del Liceo" session.

## Teatro Liminalia

It is an activity open to all students from the second year that involves learning how to perform in front of an audience. It is made up of one annual play that the students get to learn from an experienced director. Musical and dance talents are also very welcome and the final performance is always enjoyable.

Students playing at the end of the school year 2015-2016.

## ECDL

The European Computer Driving License is a computer literacy certification programme that teaches students to use computers in an efficient manner; the course gives them the ability and knowledge to use computers for work and everyday purposes. It is required that all students involved take seven tests to complete the course and our school offers the opportunity to attend lessons in order to prepare for these tests.

These are students of our school during a lesson.

## Tandem

Native speakers volunteer and interact with the students to improve their foreign language speaking skills.

## Caffè filosofico

This is an event where students and philosophers get together to discuss and improve students' comprehension of Philosophy.

## Theatre in English

Students can also take a course of theatre completely in English and directed by the teacher Donatella Calamita. It is useful to improve students' speaking skills and acting.

These are the actors of the school play (year 2015-2016).
